

# DMP Tool for Parish Survey Review

---

As we begin to process our survey report ... please keep in mind the purpose of our parish survey ... to listen for what was important to the people, what they valued most and what really mattered to them. We will use this information to develop questions for small group meetings, provide feedback to the community and to eventually add to additional information to write our pastoral plan.

The section I am reviewing is:

- Word
- Worship
- Community
- Service

	<b>Key Question</b>	<b>Findings/Response</b>
1	What have people told us are <b>“key strengths”</b> - things that most seem to <b>“give life”</b> to the parish from this section?	
2	What are the areas that people shared to <b>“enhance, improve or grow”</b> the parish from this section?	
3	For each open-ended question in this section, what are the <b>“2-3 key themes”</b> and <b>“2-3 supporting quotes for each theme”</b> ? Include comments that you find to be inspiring and compelling.	Question 1 - key themes and supporting quotes
		Question 2 - key themes - supporting quotes
		Question 3 - key themes - supporting quotes

Please suggest one question from your review of this section for consideration to look deeper during the second part of our listening ... the small focus group meetings.
